LEARN TO SCUBA DIVE

New Classes Begin Every Month

\$325 SCUBA CLASS: Classroom, Pool, Four Certification Lake Dives, Log Pages, Tank, BCD, Regulator, Dive Computer, Weights, and Wet Suit (\$150 deposit required; students must purchase book, mask, fins, snorkel, dive boots [packages available], food and transportation.)

SCUBA diving is a fun and exciting adventure that will take you to places that you may have never dreamed possible. At ProTech Scuba LLC we are dedicated to giving you the best scuba diving experience possible for the least amount of money. As such, we offer two complete certification packages to choose from (Arizona Lake or San Carlos, Mexico), both with exciting underwater experiences.

SCUBA diving instruction consists of three phases: academic, pool and open water. Come by ProTech Scuba LLC to fill out paperwork and sign up for the class. Two classroom sessions will be conducted on a Saturday or Sunday during the day (9:00-4:00). Two pool sessions will be conducted in the evening during the week (6:00-10:00). Once you complete your "KNOWLEDGE QUESTs" (a little bit of homework), you are ready to get certified in the open water.

In open water, your skills will be tested on four open water dives. These dives may be done as part of one of our regularly scheduled monthly trips. The price above includes the trip to an Arizona Lake. If you choose to attend a San Carlos, Mexico trip for certification there is an additional fee (\$225) to cover the boat and motel accommodations. Your SDI SCUBA certification is good anywhere in the world. It allows you to purchase or rent scuba gear and enables you to travel to dive locations in order to experience the wonders of the underwater world. You can also use your SDI certification to learn more about diving by taking our ADVANCED ADVENTURE DIVER course or any one of our many specialty courses.

SCUBA diving is fun for the whole family! Or, invite a friend to learn to dive with you (ask about our military arrangements). Basic open water training is just your first step in experiencing the other 71% of the planet!

Note: Bring your completed "KNOWLEDGE QUESTs" to ProTech Scuba LLC during the first weekend of class to be checked (otherwise a \$25 rescheduling fee may apply).
