#### **Open Water Certification (Option 1)**

Be sure to sign up to complete your SCUBA certification on one of our fun filled dive trips. We have many options available with their own unique opportunities. Option 1 is lake certification. Dive one of Arizona's many lakes. The trip includes all of the necessary SCUBA gear, instructor fees, and certification for successful completion of the dives (food, transportation and logging not included).

Cost: \$250

**TOTAL COST (Option 1): \$450**

#### **or Open Water Certification (Option 2)**

This certification option is to San Carlos, Sonora, Mexico. It is one of the best SCUBA certification choices we offer. Option 2 includes all of the necessary SCUBA gear, instructor fees, certification (for successful completion of the dives), **two-nights accommodations in San Carlos and two 2-tank boat dives (four dives total)**.

Cost: \$450

**TOTAL COST (Option 2): \$650**

#### **or Open Water Certification (Option 3)**

This certification option is another location with another SCUBA company and is called a "Referral." Basically, you complete the classroom online, and the pool sessions with us. We then give you a referral to complete your certification at the destination of your choice (we can help you with that decision). You complete your open water training elsewhere (\*) and then bring the paperwork back to us after they have filled out their portion.

Cost: \$50

**TOTAL COST (Option 3): \$250\***
